

**CRC TiME Forum Speaker Biography – Rob Stevens, Ph.D., P.Geo, President,
Pakawau GeoMangement Inc.**

Dr. Rob Stevens is a professional geologist and a technical project director, policy advisor, educator and facilitator for the mineral exploration and mining sector. He is the author of the best-selling book '*Mineral Exploration and Mining Essentials*' that provides a comprehensive overview of the mining industry. Rob has been a professor and Associate Dean at the British Columbia Institute of Technology, a director of international programs at the Canadian International Resources and Development Institute at the University of British Columbia and the Vice-President of technical and regulatory policy at the Association for Mineral Exploration in Vancouver.

Rob has led and managed the development of guidance documents related to mine closure, engagement with Indigenous groups and reclamation in mineral exploration. He has led international training programs on mine closure and managed the development of a Master degree in Ecological Restoration and a undergraduate degree in Mining and Mineral Resource Engineering.

Rob is passionate about the mineral exploration and mining industry and enjoys the mix of science, engineering, business, community, discovery and entrepreneurialism that are integral to the industry.
